

# NEW FOR 2019

## The Cherwell Village Apartments

Sharing a house can be great fun. It often leads to people becoming more independent and able to live in their own space. We noticed that there were very few places where people could have their own apartment and be able to rely on a little support from time to time.

That's why we designed and built the Cherwell Village apartments. A prestigious development where people have their own self-contained apartment with bedroom, bathroom, kitchen and living area, as well as access to 24-hour on-site support should they need it.

And that's not all. The apartments have direct access to the Cherwell Wellbeing Garden & Farm and the Social Lounge. That means that the Cherwell Village Apartments is a great place to live; socialise; be active; volunteer and learn new skills, that may just lead to the next step towards independence....having a job.

### Supported Living

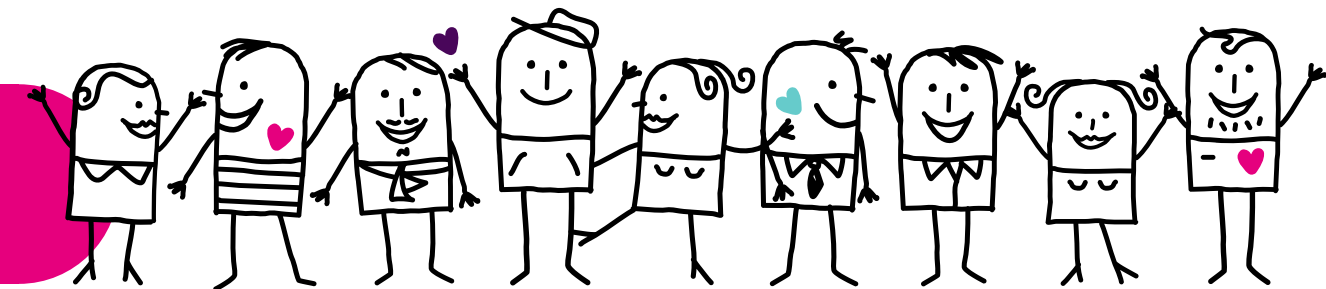

Great places to live great lives

Living independently is important to a lot of people. Our supported living service provides tailored support to live in the community and develop even greater independence.

## Live the life you choose

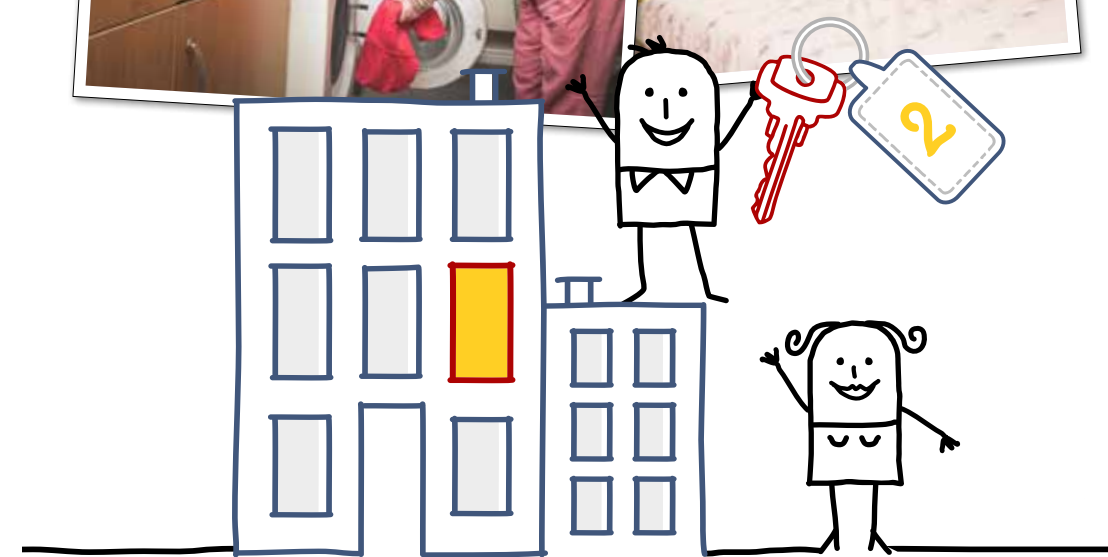

We help people to 'live the life they choose', by working with them to create a person centred plan. This sets out how they would like to be supported, and encourages them to have hopes, aspirations and dreams.

Likewise, we make every effort to match our support workers so that they have shared interests with the people that they support. That way, they can really enjoy activities together.

Usually people share a house with other people, and often share support too. When looking for a place for you in supported living we try to match you with other people who have similar interests and that you will enjoy house-sharing with.

## What people say about PossAbilities Supported Living

“ Xerae ped ut expelit ationsed quunt etur, incid ut que nisitionet facid molore ex es aut re es event aribus et quae cuscidem voluptaecte et volorendio blatem sequodi ”

“ Henda nectibus aligenition nessimum ium consedit labor antorio nsecum qui quam quiamet ”
